Great   Good   N1   title

Add Comment

The Overall website is good, but i would like to prefer more details on the vehicle like

            * Seating Capacity
            * Mileage

which is not mentioned in the website and i would also like to know where should i collect the vehicle and after my due time where should i deliver the vehicle. Iam also kinda disappointed that there is no Door-step delivery for the vehicle which is quite available at almost every rental website. Rather than that i have no Queries about the website.

* ~~Def~~ Con

* May divide the Car Section into based on types like SUVs, Sedon's etc... So, that User may Select the type based on his needs.

* from ravreoxer ① & I accept Certain points abouts Seating Capacity, mileage, And also the delivery time

* And also by you Con mention the Range Allowance of each vehicles.
